COURSE LIST FALL 2024

Fostering creativity in at a young age is essential to developing communication and language skills, problem-solving abilities, and improving self-esteem. Students will enjoy exploring drawing, painting, printmaking, ceramics, and mixed media projects guided by the Elements & Principles of Art and Art History. Following step-by-step demonstrations, kids and teens will develop foundational art skills and ignite their imagination through new art projects each session.

All materials are included for Kids and Teen courses.
